Corian®:

A collection of sinks, basins, washplanes & baths.

The beauty of Corian® lies in its adaptability. This innovative material, which can form organic or linear shapes, permits endless creative possibilities allowing the freedom to design spaces tailored to personal tastes.

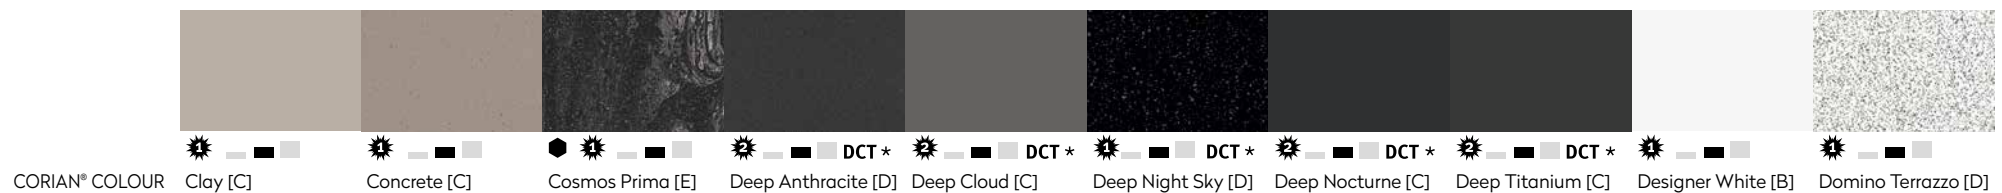

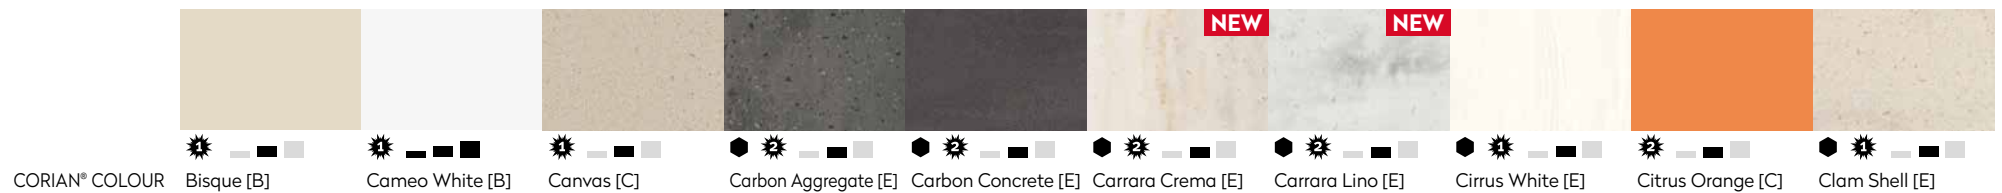

Within the confines of the kitchen and bathroom, the seamless construction and extensive colour palette of Corian® are easily configurable to suit a variety of interior styles from modern classic to minimalist to rustic chic.

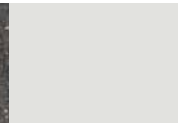

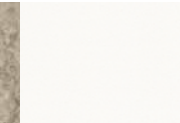

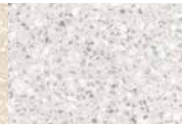

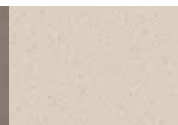

The pure, elegant forms of Corian® sinks, basins and work surfaces integrate effortlessly into these surroundings, creating intimate spaces that reflect the personality of their owner and that play host to life's daily rituals.

DCT This colour is produced with DeepColour™ Technology* and offers a darker, deeper, richer colour appearance, reduced whitening caused by impact, heat or thermoforming and reduced sanding time to achieve the desired finish than former versions. (*Patent pending)

* Dark colours of Corian® tend to show every day wear and tear, including light scratching, more readily in high use horizontal areas (eg. kitchen benchtops). To ensure we meet your expectations, customers should be aware of the extra care needed. Scratching is not considered a product defect and hence not covered by the 10-year warranty.

New AXIX™ Sinks.

The art of mixing beauty
with performance.

The new AXIX™ sinks are a range of high quality products that have been specifically selected to complement Corian® Solid Surface.

AXIX™ sinks allows for a straight forward fabrication method completed in the workshop, to provide a water tight solution that can be used in combination with hot/boiling water taps.

Available in 4 colours, this on trend mix of finishes combined with all Corian® colours can bring a whole new dimension to kitchen design.

The PVD finishes of Copper, Gold Brass and Gunmetal is a process involving the production of a thin film or coating to create a lasting and extremely durable surface. It is twice as hard as stainless steel and does not require a final coating, therefore eliminating any possibility of corrosion or tarnishing.

All AXIX™ sinks have a protective coating on the underside known as Insusound® which insulates and helps retain the heat of the water in the sink whilst also reducing noise if a waste disposal unit is fitted.

AXIX™ Sink Colours.

AXIX™ Sinks unify the versatility of Corian® Solid Surface with the practicality of stainless steel to bring you beauty with performance.

Corian® Ultrarange. by Mark Gacesa

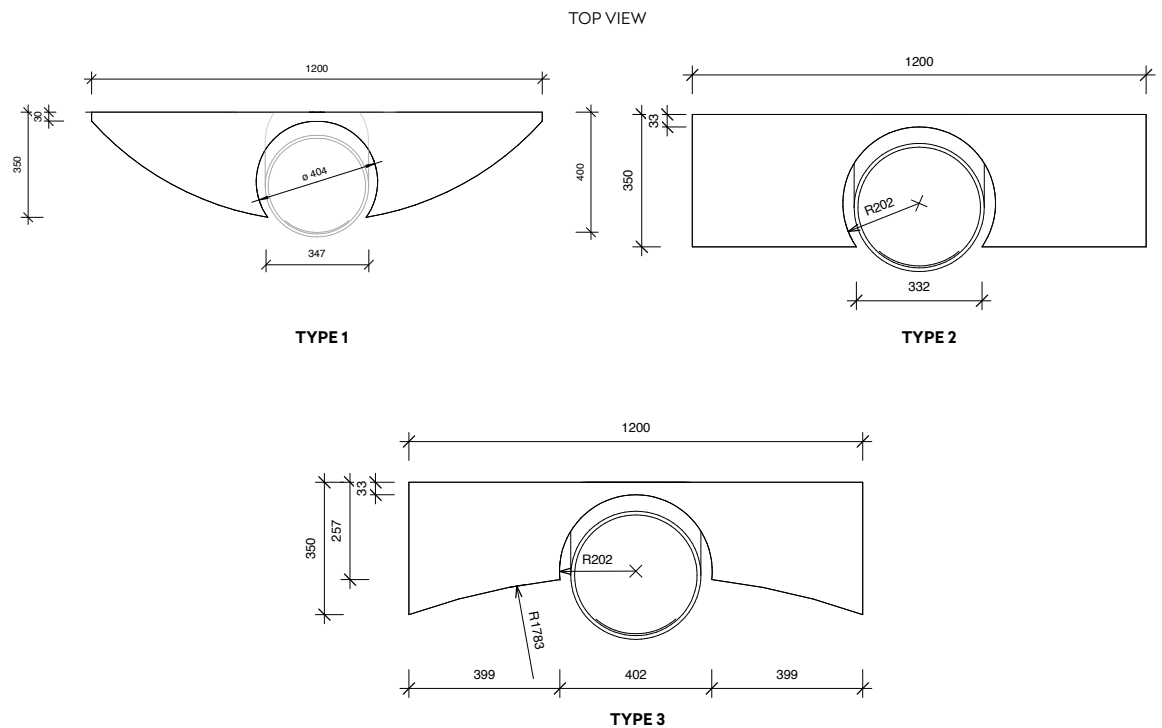

That which is designed with care and curated with loving attention offers a wellspring of inspiration and creativity. This is something that has always inspired the Corian® team. We know the level of delight, inspiration and support that good design lends to our day-to-day. It is this understanding of the intimacy of design – the weight of a fork in one's hand, the throw of light as we switch on our bedside lamp each evening – that inspired the latest collaboration with multi award winning designer Mark Gacesa to create the new Corian® Ultrarange.
